Format

Eligibility	Each team will consist of one member and one guest or two members. Each team member must have an established USGA handicap. Max. handicap is 36. Speak with John Rose regarding handicap questions.
Flights	Eight flights with six teams in each flight. Flights are determined by the total combined index of both team members. Any ties that may arise when making flights will be broken using the lowest player's index. The team with the lowest individual index is placed in the lower flight.
Match Play Handicap	Each Team will play a 9 hole match against the other five teams in their flight. The course handicap of all four players will be reduced by the lowest course handicap in the group. The lowest course handicap member of the group shall then play from scratch. The other three players are each allowed 100% of the difference.
Scoring	Each 9 hole match will be worth a total of 10 pts. Each hole will be worth 1 point and the overall match winner will receive 1 point. A hole is won when one team's better ball net score is lower than that of its opposition. In the case of a tie for low net score on a hole or in the match, each team will receive ½ point.
Winners & Ties	The team with the most points accumulated at completion of all matches will be the overall winners. First, second and third places in the flights win Pro Shop credit. Ties split the awards.
Additional Offers	When you sign in, you may pay to be eligible for a Skins Game by round (\$20/team), a Horse Race on Saturday afternoon (\$10/team), and a Raffle (as you desire, but about \$40). Team will receive two hats.
